Director's Message

We are delighted to welcome you all to the 8th edition of the prestigious **PUNE SHOULDER COURSE 2027**.

This year, we embark on a **Shoulder Odyssey** – exploring the **Art, Science and Future of Shoulder Surgery**. The shoulder is a fascinating and evolving field, where sound clinical judgment, surgical precision and technological innovation come together. Our aim is to take you through this journey in a structured, practical and thought-provoking manner.

The **PUNE SHOULDER COURSE 2027** will cover the entire spectrum of shoulder surgery, with a special focus on challenging and complex scenarios encountered in shoulder arthroscopy and arthroplasty. The scientific programme has been designed to bridge the gap between concepts and their application in everyday surgical practice.

The course will feature **didactic lectures, surgical videos, live and relive surgeries, along with hands-on workshops** covering both basic and advanced techniques. Through interactive discussions and case-based learning, we hope to share not only **what to do**, but also **how to think** when faced with difficult shoulder problems.

Our journey will span from fundamentals to advanced concepts, from established techniques to emerging innovations, and from the art of decision-making to the science behind modern shoulder surgery.

We look forward to welcoming you to this exciting **Shoulder Odyssey** – a journey of learning, sharing, refining skills and shaping the future of shoulder surgery.
